Title: Liaison statement to JTC 1/WG 7 for Collaboration on Sensor Networks

Source: ISO/IEC JTC 1/SC 6/WG 7 Meeting (22 January 2010)

Contact: Shin-Gak Kang (Convenor of SC 6/WG 7)

For: Action

Deadline: Before next SC 6 meeting (27 Sept. ~ 01 Oct. 2010)

During JTC 1/SC 6/WG 7 meeting in January 2010, it was noted that JTC 1/WG 7(Working Group on Sensor Network) had been established according to JTC 1 Resolution in October 2009. SC 6/WG 7 had discussed about the future collaboration with JTC 1/WG 7 members. Dr. Yongjin Kim, Convenor of JTC 1/WG 7 presented about the Terms of Reference of WGSN and relationship between WGSN and other Sub-Committees.

Collaborative meeting discussed about the role and work scope of JTC 1/WG 7 and JTC 1/SC 6/WG 7 to set up more strong collaborative relationship. The following general consensus has been reached at the meeting:

- JTC 1/WG 7 will cover overall aspects of sensor network including general architecture, interfaces and application profiles for sensor network.
- JTC 1/SC 6 will deal with some specific solutions such as protocol and detailed architecture to realize the solutions for sensor network.

We would like to inform that SC 6 appointed Mr. S. G. Yoo (Korea) as a Liaison Representative to JTC 1/WG 7 for further collaboration.

SC 6/WG 7 is very much interested in further cooperating with JTC 1/WG 7 on sensor network. JTC 1/SC 6/WG 7 would therefore like to be informed of your future progress on sensor network issues.

JTC 1/SC 6 will meet in London, 27 September ~ 01 October 2010.
