Information Technology -- Security techniques

Date: 2009-07-21

Dear Lisa,

Request for Free Availability At No Cost of ISO/IEC 11889 Parts 1- 4

At its 21st Plenary in Beijing (China) May 2009, SC 27 approved the request from the Trusted Computing Group (TCG) (ref. document SC 27 N7765) to make the following International Standard series

ISO/IEC 11889:2009-05 -- *Trusted computing module*

Part 1: *Overview*

Part 2: *Design principles*

Part 3: *Structures*

Part 4: *Commands*

freely available **AT NO COST** on the grounds that authorized identical documents are or will be freely available in electronic format elsewhere.

We would therefore like to request that the appropriate steps be taken to obtain the endorsement by the ISO and IEC to make these International Standards also freely available electronically from the ITTF website.

Many thanks in advance for your circulating this request to the JTC 1 National Bodies for their approval.

Best regards,

Krystyna Passia
SC 27 Secretariat
