DISTRIBUTION: ITTF, JTC 1 Secretariat, Cocimarov P-, L-, O-Members of SC 25

No of Pages: 2 (including cover)

**Project extension request for ISO/IEC 18012-2: Information technology -
Home electronic system (HES) - Guidelines for product interoperability –
Part 2: Taxonomy and lexicon**

The NWIP for a four-part standard was distributed with JTC 1 N 5520. The project was approved 1998-12 as recorded in JTC 1 N 5652.

ISO/IEC 18012-1: Information technology - Home electronic system (HES) - Guidelines for product interoperability – Part 1: Introduction, was published 2004-02.

The project limit for part 2 had been extended to 2009-12-31. This limit cannot be met since: the project involves a rapidly evolving area of technology related to the "smart grid". As a result, expert discussion and comment has been extremely active and has developed new material that needs to be included in the draft in order to develop broad consensus. It is expected that an additional CD/FCD ballot/meeting cycle may be needed.

Therefore SC 25 approved the following resolution at its last plenary:

Resolution SC 25: 20/ 14

Resolution WG 1/07 (25.01.07.02)

SC 25 instructs its Secretariat to circulate a new corrected 2nd CD of ISO/IEC 18012-2 (Ron Ambrosio and Dritan Kaleshi, editors) for ballot upon receipt from WG 1, and asks him to seek a reset of the TMB limit dates.

JTC 1 is therefore kindly requested to approve the following new limit dates:

- FCD 2010-06-30.
- FDIS 2010-12-15
