Title : Establishment of a liaison between ISO PC 246
"Anti-counterfeiting tools" and ITU-T F.771
"Service description and requirements for
multimedia information access triggered by tag-
based identification"

Source : ISO PC Secretariat

Status : This resolution is submitted to a 2 months ballot
period from 2009-07-08 to 2009-09-08.

The members and liaisons are invited to submit
their vote using the ISO electronic balloting portal
(Committee internal balloting).

**Liaison between
ISO PC 246 "Anti-counterfeiting tools"
and
ITU-T F.771 "Service description and requirements for multimedia information
access triggered by tag-based identification"**

Proposed Resolution :

<i>Approval of a liaison between ISO PC 246 "Anti-counterfeiting tools" and ITU-T F.771 "Service description and requirements for multimedia information access triggered by tag-based identification".</i>

ISO PC 246 "Anti-counterfeiting tools" recognizes that a liaison between ISO PC 246 "Anti-counterfeiting tools" and ITU-T F.771 "Service description and requirements for multimedia information access triggered by tag-based identification" may be of mutual benefit to both communities.

Therefore, ISO PC 246 "Anti-counterfeiting tools" approves the creation of a liaison between ISO PC 246 "Anti-counterfeiting tools" and ITU-T F.771 "Service description and requirements for multimedia information access triggered by tag-based identification".

The members who approve this liaison are also invited, if they wish, to nominate a liaison officer. If several liaison officers are nominated, an additional ballot will be launched to designate this liaison officer.
