ANNEX A

UK National Body Comments on ISO/IEC JTC1 N9375 Request for Approval of OASIS as an Approved RS Originator Organization (ARO)

The UK National Body notes that the application template in JTC 1 1N9375 is incomplete. Sections 4A and 5A have not been completed by the applicant and we believe that the ballot should be considered void due to this. We suggest that this request is resubmitted when the form has been completed.
