

ISO/IEC JTC 1/WG 7
Working Group on Sensor Networks

Document Number:	N129
Date:	2011-01-04
Replace:	
Document Type:	National Body Contribution
Document Title:	NB of China's comments on ISO/IEC WD 29182-7, Information technology — Sensor Networks: Sensor Network Reference Architecture (SNRA) — Part 7: Interoperability guidelines
Document Source:	NB of China
Document Status:	For your information.
Action ID:	FYI
Due Date:	
No. of Pages:	2

ISO/IEC JTC 1/WG 7 Convenor:

Dr. Yongjin Kim, Modacom Co., Ltd (Email: cap@modacom.co.kr)

ISO/IEC JTC 1/WG 7 Secretariat:

Ms. Jooran Lee, Korean Standards Association (Email: jooran@kisi.or.kr)

Template for comments and secretariat observations

Date: 2010—12—23	Document: N091
------------------	----------------

1	2	(3)	4	5	(6)	(7)
MB ¹	Clause No./ Subclause No./ Annex (e.g. 3.1)	Paragraph/ Figure/Table/ Note (e.g. Table 1)	Type of com- ment ²	Comment (justification for change) by the MB	Proposed change by the MB	Secretariat observations on each comment submitted
CN/ 1	5		ed	The layers in figure 1 (Sensor Device/Node Layer, Sensor Network Layer, Sensor Application Layer, Sensor Network User layer) are prone to be confused with the layers of SNRA in 29182-1 (hardware layer, basic function layer, service layer).	Suggest that change “layer” in figure 1 to “level” or any other appropriate word.	
CN/ 2	5.2		te	The first paragraph describes “end user”, and in figure 2 “user” is depicted. Their meanings are different. The two words should be consistent with each other in the context.	Modify “end user” in the first paragraph or “user” in figure 2 to make them consistent.	
CN/ 3	5.3	Last sentence of the first paragraph	ed	The goal of using middleware is to provide interoperability between different gateways and applications, not to provide interoperability between middleware and applications or between gateway and middleware separately	Modify the sentence. Here is a suggestion: Using sensor network middleware in the applications could give interoperable connection between any gateways and any applications.	
CN/ 4	5.3	First sentence of the second paragraph	ed	The “,” between “them” and “gives” in the sentence seems to be redundant.	Delete “,”.	
CN/ 5	5.4		te	In the context, there is no description about middleware or functions of gateway depicted in figure 4.	In the section, add descriptions to explain middleware or functions of gateway depicted in figure 4.	

1 **MB** = Member body (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

2 **Type of comment:** **ge** = general **te** = technical **ed** = editorial

NOTE Columns 1, 2, 4, 5 are compulsory.
