## Request for Category C Liaison Status to ISO/IEC JTC1/SC27

Dear Dr. Fumy,

PICOS ([www.picos-project.eu](http://www.picos-project.eu)) is a European Union sponsored project in the area of Privacy and Identity Management bringing together 11 organizations (companies, universities, and research institutions) and more than 30 researchers. PICOS is coordinated by Goethe University Frankfurt in Germany, and I am its chief coordinator. Under the 7th Framework Programme of the European Commission PICOS is receiving funding for the period 2008 till 2010. One of the activities of PICOS is to provide coordinated inputs to standardization bodies active in Privacy and identity management, as it believes that for a standardization body the consensus view of the broader research community can be highly valuable.

PICOS is producing several deliverables on Privacy and Identity Management and its standardisation, and some PICOS participants have already contributed to the work of SC 27 and especially WG 5, e.g. in the area of projects 24760, 29100, 29101. However in view of intensifying this activity, we believe that a participation of PICOS to the work of SC 27/WG 5 could be very useful for both parties. Therefore we request that consideration be given to a Category C Liaison between ISO/IEC JTC 1/SC 27/WG 5 and PICOS. We would like to have the establishment of this relation becoming active as soon as possible and are looking forward to receiving a positive reply from SC 27 and JTC 1. In case of any questions, please feel free to contact me.

Looking forward to a positive reply from SC 27 and JTC 1

Yours sincerely,

*Kai Rannenberg*  
Kai Rannenberg

PICOS is receiving funding from the Community's 7th Framework Programme
