UK Comments on ISO/IEC JTC 1/SC 6 N 14013 and N 14040, Text for FPDAM ballot on Draft Amendment 2 to ISO/IEC 16512-2:2008 (X.603.1)

1. The UK National Body of SC 6 approves the improvements made to the text of the PDAM at the ISO/IEC JTC 1/SC 6 meeting in Tokyo, June 2009
2. The UK NB has studied N 14013, the output document from the SC 6 Tokyo meeting, and N 14040, the Korean NB review of the output document with editorial modifications. The UK NB considers that all major agreements from the Tokyo meeting have been taken into account in these two documents.
3. The UK NB considers that the text is ready for progression to FPDAM status and requests that N 14040 should be issued for ballot at the start of August, according to SC 6 resolution 6.7.7 of the Tokyo meeting. This will provide ample time to review any comments between the close of the ballot in December and the start of the ISO/IEC JTC 1/SC 6 meeting in Barcelona, January 2010. It will also enable a rapid advancement towards an agreed text for consent by ITU-T SG 11.
