Request for extension of ISO limit dates for project ISO/IEC 24745

As a result of its recent April 2008 meeting held in Kyoto, SC 27/WG 5 requests that JTC 1 approve the following extension to ISO limit dates and that ITTF update their database accordingly:

Project	ISO/IEC number	Title	Current limit dates		New limit dates	
1.27.45	24745	Biometric template protection	CD	2007-05	CD	2009-05
			FDIS	2008-05	FDIS	2010-05
			IS	2008-11	IS	2010-11

Rationale:

As per SC 27 April 2004 Plenary resolution 10 Project 24745 was taken up by SC 27 and on request from SC 37 , when the opinion in the community was, that this new project was mainly a problem to be solved by cryptographic mechanisms. During the work it turned out, that more general questions of Privacy and Identity Management need to be addressed. These aspects could only be worked on, when WG 5 was set up in 2006-05, which considered a major delay. Meanwhile the project is set out on a new platform with new editors and is attracting major interest, e.g. from SC 37. For more details regarding the development of this project see Attachment 1.
