**Document Title:** SC 27 Request for Free Availability at No Cost of ISO/IEC 11889 Parts 1- 4

**Document Source:** SC27 Secretariat

**Project Number:**

**Document Status:** This document was on the JTC 1 Tel Aviv agenda as N9677. During the discussion of the document, there was agreement to include the SC 27 request for free availability contained herein in a resolution for approval at the closing plenary session. Unfortunately, the request was inadvertently left out of the resolutions when they were formally approved during the closing session and no one noticed the omission at the time. The secretariat cannot modify an approved resolution and although there was no objection to the intent of the request during the document discussion, the secretariat also cannot assume approval. Therefore, this document is circulated for a quick 30 day confirmation of National Body agreement to make the documents requested freely available. If there are no objections by the due date, the request will be sent to ITTF for action.

Dear Lisa,

### Request for Free Availability At No Cost of ISO/IEC 11889 Parts 1- 4

At its 21<sup>st</sup> Plenary in Beijing (China) May 2009, SC 27 approved the request from the Trusted Computing Group (TCG) (ref. document SC 27 N7765) to make the following International Standard series

**ISO/IEC 11889:2009-05 -- *Trusted computing module***

**Part 1: *Overview***

**Part 2: *Design principles***

**Part 3: *Structures***

**Part 4: *Commands***

freely available **AT NO COST** on the grounds that authorized identical documents are or will be freely available in electronic format elsewhere.

We would therefore like to request that the appropriate steps be taken to obtain the endorsement by the ISO and IEC to make these International Standards also freely available electronically from the ITTF website.

Many thanks in advance for your circulating this request to the JTC 1 National Bodies for their approval.

Best regards,

Krystyna Passia  
SC 27 Secretariat
