Request for extension of ISO limit dates for project ISO/IEC 29100 – Privacy framework

As a result of its recent May 2009 meeting held in Beijing, SC 27/WG 5 requests that JTC 1 approve the following extension to ISO limit dates and that ITTF update their database accordingly:

Project	ISO/IEC number	Title	Current limit dates		New limit dates	
1.27.54	29100	Privacy framework	FCD	2009-05	FCD	2009-11
			FDIS	2009-11	FDIS	2010-05
			IS	2010-05	IS	2010-11

Rationale:

As per SC 27 May 2006 Plenary resolution 6 Project 29100. During the work it turned out, that more general questions of Privacy and Identity Management need to be addressed. These aspects could only be worked on, when WG 5 was set up in 2006-05 and have its first meeting in 2006-11, which considered a major delay. Meanwhile the project is set out on an extended platform and is attracting major interest within WG 5. The work on this project will be expedited from now on to meet the following new target dates (ref. WG 5 Beijing Resolution 5 presented in SC 27 N7724). For more details regarding the development of this project see Attachment 1.

Kai Rannenberg
WG 5 Convenor"
