CN	ALL		GE	China National Body noticed that US national body has recently expressed its concern on Sensor Network Reference Architecture in document ISO/IEC JTC 1 N9761 "US National Body Contribution on a Proposed NP for a Technical Report on Sensor Network Reference Architecture", China National Body considers that for Sensor networks have various application areas and different applications have quite different system requirements, to pushing this proposal in SC6 would limit its final results. So China NB suggests re-discuss this issue until the 2009 JTC1 plenary meeting.
