National Committees of Japan SC 6  
for ISO/IEC JTC 1/SC 6

# Possible general improvement for ISO/IEC 18092

- ISO/IEC 18092 protocol is becoming popular globally, therefore Japan National Committee of SC 6 thinks that following improvements are considered in the JTC 1/SC 6/WG 1 so that many countries can participate in the discussion
  - Description of the Services provided by PDUs
  - Description of the Functions provided by layer entities
  - Description of the Service Access Point for multiple upper layers
- Relevance of ISO/IEC 21481 should also be considered from above point of view
