**Terms of Reference of the ISO/TMB Privacy Steering Committee (ISO/TMB PSC 01) - draft**

ISO/TMB in its September 2009 plenary meeting decided to create this Privacy Steering Committee that reports directly to the TMB and allocated the Secretariat of this new committee to ISO/IEC JTC 1/SC 27 "IT Security techniques" (see ISO/TMB resolution 146/2009).

The ISO/TMB PSC 01 has the following terms of reference based on the recommendations from the TMB TF privacy:

- improve the information sharing and coordination among committees engaged in privacy work e.g. by holding of a conference between all involved committees.
- develop a common terminology document, and
- implement a live public inventory of privacy initiatives,

In addition the group shall assess the feasibility

- to improve cooperation with policy makers,
- of an ISO privacy standard,
- of an ISO level framework document of fundamental privacy standards.

Operating environment:

- Membership in the Steering Committee will be open to all ISO and JTC 1 committees / subcommittees and working groups that have worked on privacy-related standards.
- Meetings of the group should primarily be by electronic means, e.g Web meetings, telephone conferences, e-mail exchange or other discussion tools. Face to face meetings can be held, if possible adjacent with the ISO/IEC JTC 1/SC 27/WG 5 meeting.
