

**ISO/IEC JTC 1  
Information Technology**

**Document Type:** Other document (defined)

**Document Title:** SC 27 Extension Request for Project ISO/IEC 29115

**Document Source:** SC 27

**Reference:**

**Document Status:** This document is forwarded to JTC 1 National Bodies for a default letter ballot. If the JTC 1 Secretariat receives no objections to the SC 27 request, it will be forwarded to ITTF for processing.

**Action ID:** ACT

**Due Date:** 2010-02-17

**No. of Pages:** 2

**Request for extension of ISO limit dates for project  
ISO/IEC 29115 – Entity authentication assurance framework \*)**

As a result of its recent November 2009 meeting held in Redmond WA, USA (November 2009) SC 27/WG 5 requests that JTC 1 approve the following extension to ISO limit dates and that ITTF update their database accordingly:

<b>Project</b>	<b>ISO/IEC number</b>	<b>Title</b>	<b>Current limit dates</b>		<b>New limit dates</b>	
<b>1.27.57</b>	<b>29115</b>	Entity authentication assurance framework *)	CD	2010-05	CD	2011-05
			FDIS	2011-05	FDIS	2012-05
			IS	2011-11	IS	2012-11

**Rationale:**

The challenges of coordination with ITU-T, a change of ISO editorship, and the repeated scope changes have created significant delays in the development of this standard. The ITU-T has recently proposed the development of a Collaborative Team to reduce the coordination difficulties and expedite development of the standard. With the proposal for better coordination, an acting ISO editor in place, and a final scope for the project, future work will be expedited to meet the above shown target dates (ref. WG 5 November 2009 Resolutions in SC 27 N8138). For more details regarding the development of this project, see Attachment 1.

Kai Rannenberg  
WG 5 Convenor

\*) *subject to JTC 1 endorsement on the title change*

# Attachment 1

## Project Status of Recommendation ITU-T X.eaa | ISO/IEC 29115 (Nov 2009)

<b>Current status:</b> Draft Recommendation ITU-T X.eaa   ISO/IEC 6 <sup>th</sup> WD 29115
