Rapporteur, Q.12/17

Tel: +44 161 928 1605
Email: j.larmouth@binternet.com

ISO/IEC JTC 1/SC 6 is asked to resolve that the object identifier arc **{joint-iso-itu-t(2) alerting(49)}** be allocated to ITU-T X.alerting, *Information technology – Open Systems Interconnection – Procedures for the registration of arcs under the Alerting object identifier arc*, and that a long arc with Unicode label "Alerting" be allocated from the root to this node.

X.Alerting will specify the registration procedures for arcs beneath the arc **{joint-iso-itu-t(2) alerting(49)}**. (In particular it is expected to allocate an arc for WMO use.)

SG 17 has already approved this allocation.
