New Work Item Proposal

7 July 2009

PROPOSAL FOR A NEW WORK ITEM

Date of presentation of proposal: 2009-07-07	Proposer: ISO/IEC JTC 1/SC 24
Secretariat: BSI	ISO/IEC JTC 1 N XXXX ISO/IEC JTC 1/SC 24 N 3148

A proposal for a new work item shall be submitted to the secretariat of ISO/IEC JTC 1/SC 24, with a copy to the ISO Central Secretariat.

Presentation of the proposal - to be completed by the proposer.

Title Amendment to 19776-1.2 X3D encodings XML
Scope The new work to be addressed is an amendment to The work to amend includes the following: 1) Modifications to the XML Encoding to improve performance 2) Modifications to the header portion of the file to support versioning features 3) Modifications to maintain consistency and compatibility with proposed changes to the X3D Abstract Specification (19775-1.2) 4) Other changes to improve overall document consistency The intent is to produce a merged document incorporating the existing specification with the approved amendment.

Purpose and justification

1) Modifications to the XML Encoding to improve performance

The current XML encoding suffers from serious performance issues when using freely available XML parsing libraries especially for very large geometry. The proposed changes to the encoding will provide an alternative encoding to improve performance to an acceptable level while maintaining backwards compatibility. Draft text will be developed and submitted for this amendment.

2) Modifications to the header portion of the file to support versioning features

Currently an encoding can only change when the functional specification changes. This item allows encodings to change independently of the function changes. <add more detail>

3) Modifications to maintain consistency and compatibility with proposed changes to the X3D Abstract Specification (19775-1)

Additions and updates to 19775-1 may require changes to this document to support new features or maintain compatibility with existing capabilities. Draft text will be developed as necessary and submitted for this amendment.

4) Other changes to improve overall document consistency

As the changes described above are developed and mapped to the current text of the standard, additional consistency problems may be identified and should also be fixed. Suitable text for improving the current text will be developed, as necessary.

Programme of work

___ a single International Standard

___ more than one International Standard (expected number:)

___ a multi-part International Standard consisting of parts

X an amendment or amendments to the following International Standard(s):
ISO/IEC 19776-1.2.

___ a technical report, type

And which standard development track is recommended for the approved new work item?

___ a. Default Timeframe

X b. Accelerated Timeframe

___ c. Extended Timeframe

Relevant documents to be considered

ISO/IEC 19776-1.2

Co-operation and liaison

Web3D Consortium

Preparatory work offered with target date(s)

SC 24 is prepared to undertake the preparatory work required for this new work item. This project begins at level 3 for all the standards to be amended. The schedule for the amendment is as follows:

PDAM ballot	FPDAM ballot	FDAM ballot	Publication
8/2010	3/2011	10/2011	4/2012

Signature:

Will the service of a maintenance agency or registration authority be required NO

- If yes, have you identified a potential candidate?

- If yes, indicate name

Are there any known requirements for coding?NO..... - If yes, please specify on a separate page

Does the proposed standard concern known patented items? NO

- If yes, please provide full information in an annex

Are there any known accessibility requirements and/or dependencies?.... NO

- If yes, please specify on a separate page.

Are there any known requirements for cultural and linguistic adaptability?... NO

- If yes, please specify on a separate page.

Comments and recommendations of the JTC 1 or SC 24 Secretariat - attach a separate page as an annex, if necessary

Comments with respect to the proposal in general, and recommendations thereon:

It is proposed to assign this new item to JTC 1/SC 24

Voting on the proposal - Each P-member of the ISO/IEC joint technical committee has an obligation to vote within the time limits laid down (normally three months after the date of circulation).

Date of circulation: <div>2010-01-08</div>	Closing date for voting: <div>2010-04-08</div>	Signature of Secretary: <div>David Hyde</div>

NEW WORK ITEM PROPOSAL - PROJECT ACCEPTANCE CRITERIA		
Criterion	Validity	Explanation
A. Business Requirement		
A.1 Market Requirement	Essential <input checked="" type="checkbox"/> Desirable <input type="checkbox"/> Supportive <input type="checkbox"/>	The ISO/IEC 19776-1.2 standard is an essential component of several IT applications currently in use. The proposed amendment is essential to the successful operation of those applications and to the adoption of this standard by several additional market segments.
A.2 Regulatory Context	Essential <input type="checkbox"/> Desirable <input type="checkbox"/> Supportive <input type="checkbox"/> Not Relevant <input checked="" type="checkbox"/>	
B. Related Work		
B.1 Completion/Maintenance of current standards	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	ISO/IEC 19776

B.2 Commitment to other organisation	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Web3D Consortium
B.3 Other Source of standards	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
C. Technical Status		
C.1 Mature Technology	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	The proposed additional technology is mature. Addition of these proposed amended items is essential to their use and completeness as well their continued longevity.
C.2 Prospective Technology	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
C.3 Models/Tools	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	Exemplar models and tools are available for demonstrating all capabilities and all changes
D. Conformity Assessment and Interoperability		
D.1 Conformity Assessment	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
D.2 Interoperability	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
E. Adaptability to Culture, Language, Human Functioning and Context of Use		
E.1. Cultural and Linguistic Adaptability	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
E.2. Adaptability to Human Functioning and Context of Use	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	
F. Other Justification
