Canadian Response to JTC 1 N 9752, Contribution from the National Body of Australia concerning SC Scopes

Canada is very supportive of this submission for the National Body of Australia.

Overlap and conflict between the work areas of SCs and other groups, not just JTC 1 SCs is wasteful of effort, non-productive, causes conflicts, and results in confusion for the users of standards. While exceptions may exist, in the general case, conflicting standards should not exist, and confusion should always be avoided.

Canada thus supports Australia in calling for a JTC 1 resolution to remind SCs of their responsibilities in this regard.
