UNITED KINGDOM	Confirm	Yes	Yes	Yes	BS EN 27185:1992, ISO/IEC 7185:1990	
USA	Stabilize	No	Yes	Yes	INCITS/ISO/IEC 7185:1990 [R2003]	The core of the standard has remained unmodified since the early 1980s. All relevant maintenance occurred during the late 1980s and early 1990s in connection with development of the Extended Pascal standard. The outcome was the product of contributions from a range of countries, and is directly upward-compatible with the Extended version of the language. With the limited market segment for Pascal, it is unlikely that any new maintenance items will be submitted. The standard still has value both for the niche Pascal market and as a historical document.
