Liaison Reply Statement from SC6 to SC17:

SC6's Position on a General Approach for an Efficient Harmonization Process regarding the NFC Standards and ISO/IEC 14443

SC6 sincerely thanks SC17 for its liaison statement(17N3642 or 6N13878) on harmonization of the NFC standards and ISO/IEC 14443. SC6 studied the content of the LS carefully and went through long and extensive discussions, especially in its WG1 meeting. The following is the resultant position of SC6 in response to SC17.

1. SC6 will improve NFC-related standards according to the ToR and the findings of the study group.
2. In doing that, SC6 will use references (to ISO/IEC 14443) rather than copying texts wherever possible.

SC6 believes that this position of SC6 faithfully addresses the concern and meets the requests of SC17.

Relevant SC6 resolutions out of its Tokyo meeting(1-6 June 2009) are repeated below for your reference:

**Resolution 6.1.3a ToR for SG on NFC/ISO 14443 Harmonization.**

SC6 approves the document 6N13990 as ToR for the SC6 Study Group on harmonization.

- Approved

**Resolution 6.1.3b Improvement of NFC-Related Standards**

SC6 instructs WG1 to improve NFC-related standards according to the ToR and the findings of the study group, and to use references rather than copying text, wherever possible.

- Approved

**Resolution 6.1.3c Call for Contributions to SG on NFC/ISO 14443 Harmonization.**

SC 6 encourages NBs, liaison organizations, member bodies and experts to submit, to the SG on NFC/ISO 14443 Harmonization, contributions related to the NFC/ISO 14443 Harmonization, such as active and passive communication modes, as well as Peer to Peer mode.

- Approved

Attachment 1: SC6 Resolution of its Tokyo meeting, 1-6 June 2009 (6N14026)

Attachment 2: ToR for SG approved by SC6 (6N13990)
