Request for Category C Liaison Status to ISO/IEC JTC1/SC 27

Dear Dr. Fumy,

TAS³ (<http://www.tas3.eu>) is a European Union sponsored project in the area of Trust, Privacy and Identity Management bringing together 17 organizations (companies, universities, and research institutions) and more than 30 researchers. TAS³ is coordinated by the Katholieke Universiteit Leuven of Belgium, and I am its chief coordinator. Under the 7th Framework Program of the European Commission TAS³ is receiving funding for the period 2008 till 2011. One of the goals of TAS³ is to contribute to standardization in the areas of Trust, Privacy and identity management. The participants believe that for a standardization body the consensus view of the broader research community can be highly valuable.

TAS³ is producing several deliverables on Trust, Privacy and Identity Management and its standardization, and some TAS³ participants have already contributed to the work of SC 27 and especially WG 5, e.g. in the area of projects 24760, 29100, 29101. However in view of intensifying this activity, TAS³ believes that its participation to the work of SC 27/WG 5 could be very useful for both parties. Therefore we request that consideration be given to a Category C Liaison between ISO/IEC JTC 1/SC 27/WG 5 and TAS³.

We would like to have the establishment of this relation becoming active as soon as possible and are looking forward to receiving a positive reply from SC 27 and JTC 1. In case of any questions, please feel free to contact me or our designated liaison person, Brendan Van Alsenoy (Brendan.Vanalsenoy@law.kuleuven.be).

Yours sincerely,

Bart Preneel
