#### N42 Approval of Working Group 3

You will recall that ISO/TC247 approved the new work item proposal (NWIP) submitted by Japan for the development of an ISO standard for “Anti-counterfeiting track and trace method using unique identifier numbering”. The Secretariat requests that this work be placed in a Working Group (WG) designated as WG 3. Mr. Yoichi Iga has been proposed as Convenor and Mr. Kiyokazu Iida is being nominated to serve as the Project Leader of Working Group 1. A Secretary will be nominated to the WG at a later time. Conveners are appointed by Technical Committees. The convenor is being nominated at this time to allow ISO/TC 247 to appoint its WG 3 Convenor prior to the first meeting to proceed on a timely basis with the development of the standard.

The Secretariat would like TC247 members to answer the questions below on the [ISO Ballot Portal](#):

Do you support the creation of WG3 to further develop the of the approved working draft on Anti-counterfeiting track and trace method using unique identifier numbering?

Do you support Mr. Yoichi Iga as the Convenor of WG 3?

Do you support Mr. Kiyokazu Iida as the Project Leader for WG 3?
