Title : Establishment of a liaison between ISO PC 246
"Anti-counterfeiting tools" and ISO TC 229
"Nanotechnologies"

Source : ISO PC Secretariat

Status : This resolution is submitted to a 1 month ballot
period from 2008-12-22 to 2009-01-22.

The members and liaisons are invited to submit
their vote using the ISO electronic balloting portal
(Committee internal balloting).

**Liaison between
ISO PC 246 "Anti-counterfeiting tools"
and
ISO TC 229 "Nanotechnologies"**

Mr José Alcorta, Secretary of ISO TC 229 "Nanotechnologies" contacted the Secretariat of ISO PC 246 "Anti-counterfeiting tools". Please find below his suggestion:

"It has come to my attention that ISO/PC 246 "Anti-counterfeiting tools" may develop standards that may reference to nanotechnology. In this respect, ISO/TC 229 "Nanotechnologies" would be interested in establishing a liaison between both committees as this may be of mutual benefit to our communities.

I'd be grateful if you could discuss this matter with the PC 246 leadership or its members, as appropriate, in order to ascertain whether its work will relate to the nanotechnology field and, if so, whether a liaison would be possible."

Therefore, we suggest that the members of PC 246 approve the following resolution:

Proposed Resolution :

<i>Approval of a liaison between ISO PC 246 "Anti-counterfeiting tools" and ISO TC 229 "Nanotechnologies".</i>

ISO PC 246 "Anti-counterfeiting tools" recognizes that a liaison between ISO PC 246 "Anti-counterfeiting tools" and ISO TC 229 "Nanotechnologies" may be of mutual benefit to both communities.

Therefore, ISO PC 246 "Anti-counterfeiting tools" approves the creation of a liaison between ISO PC 246 "Anti-counterfeiting tools" and ISO TC 229 "Nanotechnologies".

The members who approve this liaison are also invited, if they wish, to nominate a liaison officer. If several liaison officers are nominated, an additional ballot will be launched to designate this liaison officer.
