The Netherlands Standardization Institute (NEN) is not in favour of the Fast Track and Pas Procedures. We support the idea of bringing in line the normal process, the Fast Track and the PAS process. Therefore we propose the following general rules:

- the fast track shall only be used for standards, not for amendments;
- when a standard is accepted, JTC 1 is responsible for the maintenance of the standard. All amendments should follow the JTC 1 procedure 15.5.
