No. of Pages: 2

Canadian Contribution on Archiving

SWG-Directives asked SWG-Archiving to develop material for inclusion in the JTC 1 Supplement and as a Standing Document to address the topic of Archiving for ISO/IEC JTC 1 and its Subcommittees, see SWG-Directives Recommendation 4 from Delft:

"Recommendation 4:

The SWG-Directives requests the SWG-ARM provide information on Archival requirements for the possible Standing Document or Annex on Electronic Document Preparation, Distribution and Archiving of the JTC 1 Supplement. The SWG-Directives requests this information be provided no later than 30 May 2009."

At its Berlin meeting, SWG-Directives declined to include the material provided by SWG-Archives on the grounds that this was an addition to the Directives and had not been approved by JTC 1 as a whole.

Canada believes that, the material contained in SWG-ARM N 33 would make a valuable addition to the SD on Electronic Document Preparation, Distribution and Archiving (EDPDA). Canada suggests that JTC 1 instructs SWG-Directives to include the contents of SWG-ARM N 33, as appropriate.
