Betreff: TCG | Request for Liaison Program Participation in JTC 1 / SC 27

Dear Ms. Rajchel, Ms. Passia:

On behalf of the Trusted Computing Group, I would like to formally apply for participation in the JTC 1/SC 27 Liaison Program.

The Trusted Computing Group (TCG) is incorporated as a not-for-profit industry standards organization focused on developing, defining, and promoting open standards for trusted computing that will benefit users. The organization's structure has been designed to enable broad participation, efficient management, and widespread adoption of the organization's specifications.

As you recall, the TCG has submitted the TCG Trusted Platform Module (TPM) Specification, Version 1.2 Revision 103 (ISO/IEC 11899, Parts 1 - 4) as our initial PAS submission for transposition to ISO/IEC standards. The TCG is looking forward to working closely with JTC 1/SC 27 for the ongoing maintenance of ISO / IEC 11899 and contributing to other standardization efforts of JTC 1 / SC 27 as an active Liaison participant.

We kindly ask that you take the TCG's request to the appropriate Secretariats-General for further consideration.

If you have any questions or need additional information, please feel free to contact Rich Moehl.

Thank You,

Rich Moehl
TCG Executive Director
