Subject: Message from ISO/IEC JTC 1/SC 31 Chair

SC 31 has become aware of a new work initiative that SC 6 is pursuing - the formation of a study group to investigate a harmonization between NFC and ISO/IEC 14443.

SC 31 welcomes this work effort and would be pleased to offer our expertise and assistance. In light of the work and scope of SC 31 in terms of Item Management, and specifically Item Management for RFID, and with our depth of experience and understanding in this area we believe our participation is critical to the success of this work. SC 31 would be happy to have some of our experts attend your first meeting in Fukuoka, Japan, if it can be arranged at this point. We certainly welcome the opportunity to be a part of the work going on into the future.

We ask that you kindly consider formally including SC 31 in this meeting and work effort. We would be pleased to receive an invitation or meeting announcement in this regard. If you would like to discuss this, please do not hesitate to contact me.

Sincerely,

Chuck Biss  
ISO/IEC JTC 1/SC 31 Chair
