G3 New Work Item Proposal

PROPOSAL FOR A NEW WORK ITEM

Date of presentation of proposal: 2009-06-15	Proposer: National Body of Canada
Secretariat: ANSI	ISO/IEC JTC 1 N XXXX
	SC031-N-2884

A proposal for a new work item shall be submitted to the secretariat of the ISO/IEC joint technical committee concerned with a copy to the ISO Central Secretariat.

Presentation of the proposal - to be completed by the proposer Guidelines for proposing and justifying a new work item are given in ISO Guide 26.

Title: Information technology — Automatic identification and data capture techniques — Unique identification — Part 6: Groupings

Scope: This part of ISO/IEC 15459 specifies a unique string of characters for the identification of groupings of products, product packages, units and items. The character string is intended to be represented in a bar code label or other AIDC media attached to the entity to meet management needs. To address management needs different classes of identifiers are recognized in the various parts of ISO/IEC 15459, which allows different requirements to be met by the unique identifiers associated with each class.

The unique identifiers for grouping or products, product packages, units and items enables grouping by e.g. type, characteristics, order, manufacturing, quality, location, movement, etc. to be uniquely identified and possible to use together with other unique individual identifiers defined in other parts of ISO/IEC 15459. Encoding these unique identifiers in a data carrier enables information about the product and end-of-life processing to be clearly identified.

This new proposal is to involve work – related to modification to 15459-6 to include the functionality of product package and grouping of transport units. Common content, terms and definitions will be phrased in the same way in all parts of ISO/IEC 15459 to minimize inconsistencies with the closely related ISO/IEC 15418 and ISO/IEC 15434 standards.

NOTE The unique identifier for groupings is intended for "look-up" purposes, and cannot be directly used as a unique item identifier in the strictest sense of the definition as used, for example, in ISO/IEC 15459-1, ISO/IEC 15459-4, and ISO/IEC 15459-5.

Purpose and justification – This Work Item is intended to align the complete suite of standards under ISO/IEC 15459.

If the proposed new work item is approved, which of the following document(s) is (are) expected to be developed?

- ___ a single International Standard more than one International Standard (expected number:)
- _xx_ a multi-part International Standard consisting of ..6.. parts _____ an amendment or amendments to the following International Standard(s)

Relevant documents to be considered ISO/IEC 15459-6

a technical report, type

Cooperation and liaison ISO TC 122, GS1, ASC MH10.8.2, Odette, EDIFICE, AIAG, JAMA, JAPIA

Preparatory work offered with target date(s) Committee Draft attached. FCD – October 2009, FDIS April 2010

Signature: Don Ferguson	
Will the service of a maintenance agency or registration authority be required? No If yes, have you identified a potential candidate? . If yes, indicate name	
Are there any known requirements for coding? No -If yes, please specify on a separate page	
Does the proposed standard concern known patented items? No	

- If yes, please provide full information in an annex

Comments and recommendations of the JTC 1 Secretariat -This work is a result of an SC 31/WG 2 Ad Hoc whose purpose was to align the various parts of ISO/IEC 15459.

Comments with respect to the proposal in general, and recommendations thereon:	Ī
It is proposed to assign this new item to JTC 1/SC 31/WG 2	

Voting on the proposal - Each P-member of the ISO/IEC joint technical committee has an obligation to vote within the time limits laid down (normally three months after the date of circulation).

Date of circulation:	Closing date for voting:	Signature of JTC 1 Secretary:
2009-06-25	2009-09-25	Lisa Rajchel

NEW WORK ITEM PROPOSAL - PROJECT ACCEPTANCE CRITERIA		
Criterion	Validity	Explanation
A Business Requirement		
A.1 Market Requirement	Essential _X_ Desirable Supportive	The applicability of the various parts of 15459 is confusing. This Work Item is intended to provide commonality among the parts and therein reduced this confusion.
A.2 Regulatory Context	Essential Desirable Supportive Not Relevant _X_	
B. Related Work		
B.1 Completion/Maintenance of current standards	Yes _X_ No	This Work Item serves to create a second edition of ISO/IEC 15459-1
B.2 Commitment to other organization	Yes No _X	
B.3 Other Source of standards	Yes No _X	

C. Technical Status		
C.1 Mature Technology	Yes _X_ No	
C.2 Prospective Technology	Yes No _X_	
C.3 Models/Tools	Yes No _X_	
D. Conformity Assessment and Interoperability		
D.1 Conformity Assessment	Yes No _X_	
D.2 Interoperability	Yes _X No	Ultimately this suite of standards provides unique identification of items in the supply chain.
E. Other Justification		

Notes to Proforma

- **A. Business Relevance.** That which identifies market place relevance in terms of what problem is being solved and or need being addressed.
- A.1. Market Requirement. When submitting a NP, the proposer shall identify the nature of the Market Requirement, assessing the extent to which it is essential, desirable or merely supportive of some other project.
- A.2 Technical Regulation. If a Regulatory requirement is deemed to exist e.g. for an area of public concern e.g. Information Security, Data protection, potentially leading to regulatory/public interest action based on the use of this voluntary international standard the proposer shall identify this here.
- **B. Related Work.** Aspects of the relationship of this NP to other areas of standardization work shall be identified in this section.
- B.1 Competition/Maintenance. If this NP is concerned with completing or maintaining existing standards, those concerned shall be identified here.
- B.2 External Commitment. Groups, bodies, or fora external to JTC 1 to which a commitment has been made by JTC for cooperation and or collaboration on this NP shall be identified here.
- B.3 External Std/Specification. If other activities creating standards or specifications in this topic area are known to exist or be planned, and which might be available to JTC 1 as PAS, they shall be identified here.
- **C. Technical Status.** The proposer shall indicate here an assessment of the extent to which the proposed standard is supported by current technology.
- C.1 Mature Technology. Indicate here the extent to which the technology is reasonably stable and ripe for standardization.
- C.2 Prospective Technology. If the NP is anticipatory in nature based on expected or forecasted need, this shall be indicated here.
- C.3 Models/Tools. If the NP relates to the creation of supportive reference models or tools, this shall be indicated here.
- D. Any other aspects of background information justifying this NP shall be indicated here.

D. Conformity Assessment and Interoperability

- D.1 Indicate here if Conformity Assessment is relevant to your project. If so, indicate how it is addressed in your project plan.
- D.2 Indicate here if Interoperability is relevant to your project. If so, indicate how it is addressed in your project plan.
- **E. Cultural and Linguistic Adaptability** Indiciate here if cultural and linguistic adaptability is applicable to your project. If so, indicate how it is addressed in your project plan.

F. Other Justification be indicated here	Any other aspects of background information justifying this NP shall
