# SC 6 Nomination of NIDA as the Registration Authority for ISO/IEC 9834-9 "Information technology – Open Systems Interconnection – Procedures for the operation of OSI Registration Authorities: Registration of object identifier arcs for applications and services using tag-based identification"

#### **Background**

NIDA was established to develop and manage Internet address resources which make up the essential infrastructure of u-Korea, the future society based on knowledge and information.

NIDA has managed to consolidate its areas of operation and play a leadership role in managing Korea's Internet address resources.

In addition to managing Internet address resources, NIDA also develops new projects to promote the Internet, conducts and assists in Internet-related research, leads efforts to standardize Internet resources, conducts policy research aimed at further developing and promoting the use of Internet address resources, and cooperates with international organizations concerning Internet governance. Tasked with all of these missions, NIDA has virtually become synonymous with Internet promotion in our country.

More information at <a href="http://www.nida.or.kr/english/aboutnida/index.jsp?gubun=4&menu=1">http://www.nida.or.kr/english/aboutnida/index.jsp?gubun=4&menu=1</a>

#### **Prior Knowledge and Experience**

NIDA has been a key player in the development of ISO/IEC 9834-9 and developed the mobile RFID code (mcode) for Korea.

### **Proposal for Registration Authority (RA)**

NIDA will operate the RA in accordance with ISO/IEC 9834-9. Any identification scheme that is submitted for registration under the {joint-iso-itu-t(2) tag-based(27)} OID arc will be treated according to the criteria given in ISO/IEC 9834-9.

#### **Financials**

No fee will be charged.

#### Legal

NIDA have reviewed the draft Registration Authority Agreement and are happy that it can form the basis of the Agreement with ISO and IEC.

#### Resulting addition to the ISO Web Page

The web page at

http://www.iso.org/iso/standards\_development/technical\_committees/maintenance\_agencies.htm will require the addition of a new entry for ISO/IEC 9834-9 as follows:

#### ISO/IEC 9834-9:2008

Information technology – Open Systems Interconnection – Procedures for the operation of OSI Registration Authorities: Registration of object identifier arcs for applications and services using tag-based identification

## **Registration Authority**

National Internet Development Agency of Korea (NIDA) 3F, 398, Seochoro Seocho-gu Seoul, 137-857

Republic of Korea Tel: +82 2 2186 4668 E-mail: RA-nid@nida.or.kr
