**	Title		ed	ISO/IEC Techncial Reports use an initial capital letter only for the first word of each title element.	Delete caps from all except first word of each title element.	
**	General		ed	Page setup seems incorrect, resulting in too small a font size.	Ensure paper size is A4.	
**	Foreword		ed	Foreword	Replace 4th paragraph with the following: "*In exceptional circumstances, the joint technical committee may propose the publication of a Technical Report of one of the following types:* — *type 1, when the required support cannot be obtained for the publication of an International Standard, despite repeated efforts;* — *type 2, when the subject is still under technical development or where for any other reason there is the future but not immediate possibility of an agreement on an International Standard;* — *type 3, when the joint technical committee has collected data of a different kind from that which is normally published as an International Standard ("state of the art", for example).* *Technical Reports of types 1 and 2 are subject to review within three years of publication, to decide whether they can be transformed into International Standards. Technical Reports of type 3 do not necessarily have to be reviewed until the data they provide are considered to be no longer valid or useful.*"

					The paragraph which indicates the SC that prepared the document shall also indicate whether it is a TR type 1, 2 or 3.	
**	General		ed	Document incorrectly references itself.	Document shall refer to itself everywhere as "this part of ISO/IEC TR 29138", not as "this Technical Report".	
**	2.2		ed	When a definition has been adapted from another document, this information shall be given in a Note, rather than square brackets which are reserved for definitions taken verbatim from other documents.	Give information concerning ISO 9241-11 in a Note.	
**	4		ed	Incorrect headers and unwanted blank pages appear when switching from portrait to landscape and vice-versa.	Solve as follows: 1. Insert break/Section break/next page at end of Clause 3. 2. Under File/Page setup: i) Under Margins tab, select Landscape. ii) Under Layout tab, uncheck Different first page. 3. Under Insert/Page numbers/Format, select Continue from previous section. 3. Insert break/Section break/next page at end of Clause 4. 4. Under File/Page setup: i) Under Margins tab, select Portrait. ii) Under Layout tab, uncheck Different first page. 3. Under Insert/Page numbers/Format, select Continue from previous section.	
**	4.5.2		ed	Awkward page break.	Avoid separating table headings from table content.
