DE-10787 Berlin

Dear Ms. Passia,

Subject : Request For an External Technical Category A Liaison

The European Network and Information Security Agency (ENISA) is applying for an External
Technical Category A Liaison with the ISO/IEC JTC 1/SC 27 IT Security Techniques.
ENISA is a non-profit organization that was set up to enhance the capability of the European
Union, the EU Member States and the business community to prevent, address and respond to
network and information security problems. Further information about ENISA can be found at:
http://www.enisa.europa.eu

ENISA as a Centre of Expertise in Network and Information Security believes that it can play a
useful role in representing its stakeholders in the Committee. In particular, ENISA can contribute
to the SC 27' Programme of Work by providing the Committee with the status of its ongoing
work and reporting back to its stakeholders on the status of issues handled by the Committee.
ENISA can also ask its stakeholders to comment on draft versions of standards in preparation and
provide feedback to SC 27.

In particular ENISA believes that it can contribute to the following areas of mutual interest:

- Network security
- ISMS for e-government
- ISMS for critical infrastructure
- Information security governance
- Business continuity and ICT preparedness
- Cyber-security
- Privacy and Identity management

ENISA nominates Dr. Steve Purser (Steve.Purser@enisa.europa.eu), Head of Technical Department, as the liaison representative to SC 27.

Yours sincerely,

Andrea Pirotti
