AD Hoc on Web Site Improvements

Lisa Rajchel, Ad Hoc Convener

2009 JTC 1 Plenary

ISO JTC1 IEC

INFORMATION TECHNOLOGY STANDARDS

Background

- Ad Hoc reconstituted via resolution 9 of 2008 Plenary in Nara
- Terms of Reference as follows:
    - To assist JTC 1 Secretariat in developing layout & content of public page (incl. items noted in Australia Resolution 22) utilizing ISO provided template;
    - To assist JTC 1 Secretariat in transition to eCommittee platform (ISO will provide individual log-ins to test site to gather feedback prior to launching new system)

ISO JTC1 IEC
INFORMATION TECHNOLOGY STANDARDS

Background

- The Ad Hoc will also consider the following documents:
    - JTC 1 N9390 – Contribution from France on Web Site Improvements
    - JTC 1 N9286 – SC 32 Response to JTC1 Resolution 22 "Promoting a better understanding of JTC 1"
    - JTC 1 N9396 – SC 17 Request for a Change to the ISO Homepage

ISO JTC1 IEC
INFORMATION TECHNOLOGY STANDARDS

Background

- Ad Hoc met via telecon
  - May 4, 2009
    - ISO staff participated & demonstrated draft of public page and JTC 1 eCommittee site taking into account documents N9390, N9286 & N9396
  - May 24, 2009
    - Ad Hoc developed questions/comments for ISO staff on draft public page as well as JTC 1 eCommittee site
    - Questions/comments sent to ISO staff for response (see N9825)
- ISO staff satisfactorily addressed all issues

Current Status

- Public page being finalized
  - Use by ALL JTC 1 entities as entry point to individual web sites recommended for consistent look, feel and message
- eCommittee platform being finalized
  - http://isotc.iso.org/livelink/livelink/fetch/2271139/8402493/index_new.html
- Clean-up of document types underway before migrating over already posted documents

Current Status

- Migration of data hopefully to be completed over next few months

- Additional testing and verifying needed before final transition

ISO **JTC1** IEC
INFORMATION TECHNOLOGY STANDARDS

Next Steps

- Secretariat to work with ISO Staff on migration of data, testing and verification
- Launch of new site anticipated beginning 2010

ISO JTC1 IEC
INFORMATION TECHNOLOGY STANDARDS

Proposed Resolutions

- In light of the successful resolution of JTC 1 identified issues and the progress made on the public page template and ecommittee platform, JTC 1 disbands the Ad Hoc on web site improvements and instructs the Secretariat continue to work with ISO staff in the implementation of the new site.

Proposed Resolutions

- In light of the successful resolution of JTC 1 identified issues and the progress made on the public page template and ecommittee platform, JTC 1 disbands the Ad Hoc on web site improvements and instructs the Secretariat continue to work with ISO staff in the implementation of the new site ensuring that JTC 1 accessibility issues are addressed.

ISO JTC1 IEC
INFORMATION TECHNOLOGY STANDARDS

Proposed Resolutions

- JTC 1 strongly encourages all ALL JTC 1 entities to use the public page template as the entry point to individual web sites in order to ensure a consistent look, feel and message across the JTC 1 enterprise.
