ITU-T SG13 would like to thank ISO/IEC JTC1/SC6/WG7 for its liaison statement regarding the development of ISO/IEC WD 29182 ("Reference architecture for sensor network applications and services").

Given the scope of ISO/IEC WD 29182 and that ITU-T SG13 is also developing recommendations in this area (e.g. Y.NGN-USN-reqts on requirements and capabilities for Ubiquitous Sensor networking in NGN), ITU-T SG13 is therefore very much interested in further cooperating with ISO/IEC JTC1/SC6/WG7 on sensor network requirements and architectural issues.

ITU-T SG13 would therefore like to be informed of your future progress on sensor network requirements and architectural issues.
