1   Documents considered

Report of collaborative meeting ITU-T Q 11/17 and JTC 1/SC 6/ WG 8 Tokyo (Japan) 1-5 June 2009

6N13981: Liaison statement from ISO/IEC JTC 1/SC 6/WG 8 to ITU-T SG 17 on the draft new Recommendation ITU-T X.1250, Baseline capabilities for enhanced global identity management trust and interoperability

6N13982-6N13988: Disposition of comments on ISO/IEC FDIS 9594-All Parts

6N13989: Working Draft of Amendment 2 to ISO/IEC 9594-All Parts

6N14083: Meeting Announcement and Logistic information for ISO/IEC JTC 1/SC 06 Plenary and its WGs Meetings, 18-22 January 2010, Barcelona, Spain

6N14064: Agenda for ISO/IEC JTC 1/SC 6/WG 8 and ITU-T Q.11/17 collaborative meeting on Directory in Barcelona 18-22 January 2010

Standard PKI certificate format - Interoperability specification (ATIS-0800016) and comments from Canada.

4   Meeting results

Mr. Erik Andersen, Q.11/17 Rapporteur chaired the meeting. The meeting was collaborative with ISO/IEC JTC 1/SC 6/WG 8.

4.1   Agreements reached

4.1.1   ITU-T X.500 series | ISO/IEC 9594-All parts

The sixth edition of the ITU-T X.500 series | ISO/IEC 9594-All parts has been subject to TSB editing. A final editorial check has been done by the Project Editor and the different parts are published or ready for publication.

Extensive work was performed on the *Password policy* working draft (6N13989). Several comments were received and dealt with. A new working draft has been produced. It was agreed that the work on *Password policy* (Amendment 2 on Edition 6 of ISO/IEC 9594-All Parts) was progressing successfully and that it can go to PDAM state within ISO/IEC.

A first Working Draft on X.500 Communications support enhancements (Amendment 1 on Edition 6 of ISO/IEC 9594-All parts) was produced.

Q.11/17 is maintaining a web site, http://www.x500standard.com/ acting as an online X.500 Implementers' Guide. It has the advantage that new issues and their resolutions are made available in a timely fashion. Currently, the Q.11/17 Rapporteur maintains the site. There is a link from the SG17 Implementers' Guide page into this online Implementer's Guide.

Several defect reports were discussed. New draft technical corrigenda will not be issued before the sixth edition of ISO/IEC 9594 has been published. However, the issues and possible resolutions are made available on the Q.11/17 web site mentioned above.

We studied the document 0800016 of Alliance for Telecommunication Industry Solutions (ATIS) related to Standard PKI Certificate Format, which address managing sensitive information in an Internet Protocol Television (IPTV) and we agree with comments from Canada in the contriburion C168 of this meeting.

5   Future meetings

Ongoing work will be progressed by correspondence and by email discussion.
