ISO/IEC JTC 1/WG 7 Secretariat:

Ms. Jooran Lee, Korean Standards Association (Email: jooran@kisi.or.kr)

Call for project editors for ISO/IEC WD 29182 parts

As per the JTC 1/WG 7 London recommendation 1, ISO/IEC 29182 will be sub-divided when the proposal for the sub-division in WGSN N023 is approved by JTC 1. WG 7 members are requested to submit nominations of project editors for new ISO/IEC 29182 parts by 2010-05-20 to JTC 1/WG 7 Secretariat (jooran@kisi.or.kr).

Nominations received will be considered at the 2nd WG 7 meeting in August 2010 in NIST, Maryland, US. As a WG 7 recommendation, the final nominations will be submitted to JTC 1 for appointment.

As per the JTC 1 Directives, a project editor is described as follows:

5.7 Project Editors

5.7.1 A Project Editor should be identified as early as possible for each standard or other document under development. The Project Editor is appointed by the SC and shall follow the editing instructions given by the working body.

5.7.2 It is the responsibility of the Project Editor to maintain the document throughout the stages of technical work, i.e. until publication. The Project Editor shall ensure that the Foreword of the final text of the standard indicates the JTC 1 SC responsible for the standard.

5.7.3 After publication, the Project Editor should maintain an updated document incorporating all approved CORs and AMDs so that a revision may be published with minimum delay when appropriate (see 15.5.4). The Foreword of the revision shall list all AMDs and CORs incorporated therein.

And also the following article on the online bonus article of ISO Focus+ will be helpful for your nomination of project editors.

Project Editors and Co-Editors Attributes, skills, roles and responsibilities

by Ariosto Farias Jr. (Ariosto Farias Jr. is Head of the Brazilian delegation to ISO/IEC JTC 1, Information technology, SC 27, IT Security techniques, and former delegate of ISO/TC 176, Quality management and quality assurance.)
